### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kevin Spivak on December 8, 2004.

The application has been amended as follows:

Claim 29. (New) The time/space coupling component according to ~~Claim 11~~ Claim 28, wherein the N connection selection stages activated and the N bridging selection stages are deactivated.

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to time/space switch with control unit. The closest prior art, Suda et al. (US Patent 6,330,237), teaches a time/space switch 21, 22 with control unit 34. Suda, however, fails to teach a data channel sequence correction unit with N bridging lines for bridging each of the N memory devices and N bridging selection stages for selective selection of the bridging lines or the memory devices for correction of the chronological sequence of the plurality of

data channels. These features are claimed in the independent claim 1 and render it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clemence Han whose telephone number is (571) 272-3158. The examiner can normally be reached on Monday-Thursday 7 - 5.
